Experience

CoreLogic | Product Designer

Jun 2017 - Present | Sydney, Australia

Initially, we partnered with Pivotal Labs to set up a Silicon Valley-style **agile user research** and the foundations for design across a variety of CoreLogic's products. I have been involved in repositioning the brand by designing complex greenfield products for the property valuation industry that helped our client to speed the loan process and **secured investments** throughout 2019-2020. Currently setting the foundation for the design systems.

The Link Group | UX Designer

Oct 2015 - Jun 2017 | Sydney, Australia

I designed and validated product workflows for a fund management system. We improved user flows and experiences so people engaged and **connected better with their assets** while making informed decisions.

The New Zealand Herald | Senior Product Designer

Feb 2011 - Sept 2015 | Auckland, New Zealand

I worked as a solo designer and developer supporting editorial by creating **data visualizations for public accountability** and interactives for storytelling that helped the user filter out the noise by focusing on the data. I won the recognition and award as the best innovation in New Zealand in 2012.

Moko Digital | Visual Designer & Developer

Nov 2009 - Dec 2010 | Auckland, New Zealand

I interviewed customers to **understand their needs**, designed and **developed** solutions for their digital presence.

Trio Group | Multimedia Designer

Apr 2007 - Nov 2009 | Auckland, New Zealand

I designed sites to translate print content to digital media.
